

## Remote Learning Plan

In order to ensure that learning is continued, irrespective of lockdown and self-isolation, Devonshire Junior Academy has developed the following plan. This plan offers remote learning opportunities whilst also acknowledging that some households have limited access to devices and would require hard-copies of work and resources. Parents will be asked to inform school in the first instance if they need support with internet or device access.

This plan will be applied in the following instances:

1. An individual is self-isolating because of a positive test within the household;
2. An individual is quarantining because of a visit to a country on the quarantine list.
3. A group of children are self-isolating because of a case of coronavirus in the bubble;
4. A whole bubble or cohort is self-isolating because of an outbreak of coronavirus.
5. A longer period of school lockdown.

The plan complies with the expectations and principles outlined in the DFE document [Guidance for Full Opening of Schools](#)

### Software and online platforms

Zoom or Teams may not always be possible due to the lack of access for families, or the inflexibility of access for parents (for example parents working from home).

Within all plans, teachers will set appropriate work in-line with our current curriculum, supplemented by a range of resources such as Oak Academy.

Oak Academy has been selected to support remote learning for a number of reasons. The Oak Academy lessons are in-line with our teaching ethos – they encourage the use of retrieval practice and explicit teaching with high quality modelling. There are also hundreds of lessons specifically aimed at children with SEND needs and requiring additional support.

White Rose Maths resources will be used as they are matched to our current maths curriculum model. Purple Mash, My Maths, Spelling Shed and Times Table Rockstars will all be used to support and monitor the acquisition and retention of basic core skills.

**SEND:** Class teachers or year group teams must plan suitable activities and learning for children working below the expected level. These activities and resources need to be matched to the child's ability. These can be emailed direct to parents via Class Dojo individual pupil profiles. Children with complex needs will be provided with suitable resources and communications from the SEND team.

School staff will phone home regularly to offer support to the parents and to talk to the children about what they have learnt and help with any problems so that they can adjust the work according to the needs of the child. Class Dojo will also help teachers and parents to message one another to share information and offer support. The Class Story page will offer the chance for teachers to celebrate children's work and maintain our school community. Use of Class Dojo will be in-line with the Class Dojo Usage Policy. Senior Leaders and other school staff may use the School Story page for whole-school communications.

**It is an expectation that Devonshire Junior Academy makes provision available and accessible to all. In the event of any form of isolation and loss of learning caused by Coronavirus, parents must understand that engagement in home learning is compulsory; however, if children themselves are too ill to attend then they should not be expected to engage in home learning.**

In preparation for home-learning, teachers, parents and children have logins and passwords for the following platforms:

- Purple Mash
- My Maths
- Class Dojo
- Times Table Rock Stars
- Spelling Shed
- Reading Plus

### Focus Provision

In the event of local or national lockdown, unless any staff are having to self-isolate, FP children will be accommodated as normal in school. This will mean FP staff will work their usual shifts in school.

### **What the learning will look like, days 1-10**

Learning will be provided to cover the 10 days of isolation, other than weekends. Children will take home some form of recording (paper/book etc), their individual resource pack from class, a reading book and their homework diary with all logins recorded.
